Hello all,

You may remember a couple of months ago we had a presentation at our Housing, Land Use and Development Committee regarding public art. Now Art presented a working draft of a Developer Deck that is intended to inform new development on how to incorporate public art with a project. That Developer Deck has been updated and is attached and we were hoping to get this group together to provide comments on it. We want to make sure it is user-friendly.

I have also attached an overview of the draft plan to advance public art in DTLA and would appreciate feedback on that too.

We will be hosting a working group at CCA on July 7 from 10-11:30am to discuss all of this. Please let me know if you can join.

Thank you, Marie

Marie Rumsey
